Dave Berman is the #1 musician on the ReverbNation local and regional Folk charts!

Recent Quotes

Dave was super easy to work with and professional from start to finish. He created an experience that I and my guests will remember forever! Thank you so much!. – Bar talent booker

Dave was awesome! Dad's a lover of the old Trail Cowboy moving his cattle to and fro and he LOVES all the songs that go with the way things were. Dave knew songs Dad spoke of, he's very knowledgeable. He, and all of us in attendance really enjoyed listening to Dave's melodies and was very excited to hear a few of his own material! The sing-alongs were absolutely a hoot! Dave is Very Talented! – Private Party Host

Dave Berman's Bio

Dave Berman is a musician and singer/songwriter who has a style that makes familiar songs sound new and unfamiliar songs sound like old favorites. A native of Omaha, Nebraska, Dave plays a mix of rootsy, acoustic music on guitar, ukulele, and harmonica from standards to rock and folk to punk.

Dave started playing ukulele at age 10, piano at 11, and guitar 13. He has played electric bass in Omaha cover bands for over 30 years. He learned to play harmonica from his father and continues to make that instrument an essential part of his repertoire. His go-to guitar is the same one he received as a gift from his wife and young son on Father's Day, 1978.

In recent years, Dave has honed his solo performance at coffee houses, bars, and private parties. He is known in the local open mic scene for performing 8 complete songs in 15 minutes. His personal brand, Club Dave Music, is dedicated to making the live music experience fun and engaging for listeners and players. He also hosts an annual benefit house concert and plays bass guitar and harmonica and sings 60s and 70s cover music in the Happy Together Band.

Stage setup

If sound reinforcement is required, Dave will provide

- Fishman SoloAmp PA
- Vocal microphone and stand
- All cables
- 4-channel mixer if requested
- Power requirements: 2 110 AC outlets for the PA and pedal power source

If sound is handled by the venue, Dave needs

- 1 vocal microphone and stand
- Guitars have active pickups and can connect through a DI or straight to the mixer
- Vocal harmonizer needs an XLR cable between the mic and pedal and 2 XLR cables between the pedal and PA
- Power requirements: 2 110 AC outlets for the PA and pedal power source
- XLR cables provided if requested
